EASTERN DATES TO MAY 8

WASHINGTON CITY

Congressional.

WASHINGTON, May 8.—In the Senate a resolution was adopted directing the Secretary of the Navy to furnish the Senate with copies of the report and maps of survey of the Isthmus of Darien and the inter oceanic ship canal.

Wilson, from the Committee on Military Affairs, reported without amendment the House bill authorizing the issue of 1,000 rifled breech loaders and ammunition for the defence of settlers against the Indians.

The bill providing for the Presidential election in Louisiana to be held on the same day as the State election was called up, the discussion occupying the morning hour, when the bill went over. There was some opposition to the bill on the ground that it was an attempt to control the election.

The Postoffice Appropriation bill came up. Nye's amendment offered yesterday and pending at adjournment was agreed to and the bill passed.

The bill fixing the time of elections in Idaho and Montana passed.

Stewart moved to take up the Goat Island bill, and have it read twice.

Without acting on the motion of Stewart the Senate, on motion of Boreman, took up the House General Amnesty bill.

Sumner moved to strike out all after the enacting clause and insert the Supplemental Civil Rights bill, but the point was raised that the amendment was not in order.

The Vice President decided that it was.

Trumbull appealed from the decision, and the appeal was tabled.

A long discussion followed on the Amnesty and Civil Rights bill.

It was finally agreed that the general debate on the amendments is to terminate at 3 P. M. to-morrow, and the Senate adjourned.

The House went into Committee of the Whole on the Tariff Tax bill.

Dawes stated that the reduction on revenue estimated to be effected by its passage would be $40,000,000. He moved to strike out the items of tea and coffee, which was discussed at great length, and finally on motion it was agreed to raise the duty on coal from 50 cents to 75 cents by a vote of 80 to 8. A new item was inserted making the tariff on Cumberland coal 15 per cent ad valorem.

Buell moved to increase the duty on salt from 8 to 12 cents per 100 pounds.

A discussion followed, which was not closed when the committee rose.

In the evening session the bill providing that all retired officers of the army shall be retired at their actual (not brevet) rank, and with the pay prescribed for retired officers of the same rank as in the regular army, was discussed.

The bill to enable the President to appoint a Paymaster General of the army was reported and passed.

Workingmen at the Capital.

WASHINGTON, May 9.—A committee of workingmen from New York interviewed the President and Secretary Boutwell to-day on the subject of the enforcement of the eight hour law. They received assurances that measures had already been taken to secure its enforcement in all Government works.

The call is issued for the National Convention at Baltimore, on July 9th, and inviting the co-operation of all conservative citizens.

CHICAGO, May 8.—The Democratic State Central Committee met here to-day and authorized the Executive Committee to call a State Convention fourteen days prior to the National Convention. There was a general expression in favor of Greeley as against Grant.

BY ATLANTIC CABLE.

From London.

LONDON, May 8.—The *Echo* to-day has a complimentary criticism on the performance of the Atlantic boat crew of New York. The London boatmen all regard the crew as very able, and a great struggle is certain on June 10th.

The Chester cup was won by Inverisk.

A *World* special says: A majority of the Erie railroad shareholders have combined to make Tom Scott President of the American Board, and Scott has telegraphed that there is sufficient assurance that the combination is considered successful.

From Paris.

PARIS, May 8.—Legitimatist journals insist that the battle of Oroquieta is not decisive of the fate of the Carlist rising, and deny that Rada or any other leader has returned to France. They assert that the revolutionary forces are masters of all of Biscay and other important points.

The latest advices from the friends of Carlos say that he has seven thousand well armed men and is well provisioned.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, May 8.—The Executive Committee of the Committee of One Hundred telegraphed last night to the President and Congress a very strong address setting forth the position of San Francisco in the Goat Island matter, and denouncing the Central Pacific management as the Erie Ring of the Pacific coast.

Leon Elsinger, who was robbed of $800 by a Barbary Coast ganger and turned out of his hotel by the landlord because he had no money, cut his throat and jumped into the Bay, and was rescued a week since, died last night in the county hospital.

The feeling on the street this morning is decidedly more confident, and there is a pretty generally expressed belief that a strong reaction will occur in four or five days at the utmost. Old operators say the rage for stock speculation will not be as great as it has been, and that wild cat will be harder to dispose of at any figure, but that there will be a steady demand for stocks in all mines having real merit for investment, money being abundant. The banks having shut down on stock brokers who have been carrying time contracts for customers, they are obliged to contract their business and call for margins as fast as possible. This will break a good many small outside operators. Thus far no failures have been reported. There is a general denunciation of Sharon and his associates. The feeling is running very high against them.

A fire in the upper story of the warehouse of Waterhouse & Lester, 124 Market street, this morning did a few hundred dollars damage.

Suit was commenced in San Mateo county by the heirs of Horace Hawes to set aside the deed of foundation of Mount Eagle University on the ground of Hawes insanity.

John George was held for trial for burglary this morning. Bail $2,000.

John Fitlerney was caught in the act of breaking into a house at the corner of Ellis and Webster streets this morning and was arrested.

Sharon, though sick and unable to see visitors last night, is able to be out, and was at the Bank of California to-day attending to business.

The leading brokers who participated in the sports of the chicken rink forfeited their bail to-day.

Arrived overland last night—Mrs. Besser, Portland, Oregon.

To arrive this evening overland—O. H. Worth, Oregon.

Henry Alston alias Nubbs, convicted of burglary, was sentenced to the State Prison for three years to-day. John Lewis, for housebreaking, went up for one year and six months. Thomas Van Dusen, robbery, three years. John J. Benson, assault with a deadly weapon, fined $400 or equivalent in the County Jail. Antonia Pelterio and Herman Hildebrand, burglary, were sent to the Industrial School. Charles Price, indicted for burglary, pleaded guilty. George W. McClusky, who was tried for manslaughter in killing a greaser in a Kearney street saloon and acquitted in the Fourth District Court, having been indicted for assault with a deadly weapon on Schultz, the proprietor of the saloon, is now being tried in the Municipal Court on the second indictment.

The stock market is buoyant and recovering rapidly.

The Supreme Court of Missouri has refused to issue a mandamus to compel the State to pay its matured bonds in coin. The court holds that it cannot go behind the action of the Legislature ordering their payment in currency.

The United States Court of Claims at Washington has rendered a decision in nine or ten cotton cases, mostly from Savannah, giving judgment against the United States for nearly $1,000,000. Among them was the Elgee cotton case, involving $350,000.

The fish oil and guano manufactories of Long Island during the past year used $169,114,000 fish, yielding 2 ... 30 gallons of oil and making 16,403 tons of guano. The value of this business is estimated at $537,497. About 2,000,000 fish were caught and used for manure.

The richest sugar planter in Cuba is by some said to be Barros, who has six factories and an income of $4,000,000 per annum. Another planter, Poey, has a representative plantation called Los Scapas, two leagues from Havana, with 600 slaves, and there he dispenses the most profuse hospitality to strangers.

The postal card system has been in operation for several months in Canada, and has proved as popular there as in Great Britain, where it originated. They are freely used for purposes of correspondence where privacy is unnecessary, and letter writing in the Dominion has been greatly stimulated, it is said, by their introduction.

Two bummers of Drake county, Ohio, indulged in a drunken fracas the other day, in which one of them killed the other. The widow of the deceased has sued the liquor seller for $10,000, while the wife of the other sues for $5,000. An Ohio jury will now be called upon to decide whether two men who will "cut up" in that way can be worth $15,000 to two families.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The National Democratic Convention.

CHICAGO, May 9.—A *Times* special from New York, written by the editor, a member of the National Democratic Executive Committee, says: Baltimore has been chosen as the place for holding the National Convention by the committee by a majority of three to one, and further states that the Convention will act deliberately and independently of all undue influences. He adds: Of course there was no formal expression by the committee on the question of the Presidential candidacy, but it was plain enough that the Greeley business was not in favor. Indeed the feeling pervaded the committee that the Cincinnati Convention was a melancholy failure. Nevertheless it was thought the Democracy should await events, and it was this policy that determined also a day for the National Convention. General regret was expressed in a private conversation at the precipitancy with which numerous Democratic papers pronounced for Greeley, and it was hoped these papers would retrace their steps and the Democracy everywhere would calmly await the action of the National Convention.

The Democratic State Central Committee of Illinois met here yesterday and authorized the Executive Board to call the State Convention two weeks prior to the day fixed for the National Democratic Convention.

Gen. Seely, a member of the Committee, and a number of prominent Democrats, who were present, appeared to be of the opinion that the Democracy ought and would support Greeley against Grant or any other possible nominee of the Philadelphia Convention, but it appears to be the feeling that the National Democratic Convention should not endorse the Cincinnati nominations before the Democrats fully commit themselves to the movement.

A large number of Democratic editors from various portions of the State were also in the city.

At a meeting held in the afternoon, it was resolved that if the National Democratic Convention endorse the Cincinnati nominee, they will be heartily supported by the Democratic press.

New York News.

There is quite too much of this ... manly conduct among the profession, but from which Dr. Aborn intends to hold himself, in the future as in the past, entirely aloof.

In reference to, and in defense of, his ... advertising, Dr. Aborn feels justified in saying ... that having devoted his entire time to the study and treatment of a few chronic ... and having ... a success unparalleled in their treatment, he would be *false to his humanity*, were he not to make these facts known. The simple fact that "quacks" and "humbugs" (so-called) do advertise, does not ... the propriety of sound, scientific and ... practitioners likewise using the columns of the press.

Moreover, there are perhaps but few intelligent medical men who are unwilling to admit that there are quacks and humbugs in the profession, who are located too, and yet do not advertise ... How ever nearly every physician has his ... method of advertising himself. Surely it is legitimate to advertise a specialty in medicine, if honestly and honorably done, and especially if the advertiser is competent to treat such cases with unusual success, as it is to use the same means to bring into notice an improved and labor-saving agricultural implement. By so doing, the specialist benefits suffering humanity by informing them where they can be cured of their maladies, that have ... for years or a life time resisted ordinary modes of treatment, and the mechanic, perchance, relieves the husbandman of his burdens and lightens the toils of his helpmeet, woman. Thus an intelligent and unprejudiced mind readily approves progress and improvement in everything.

The Daily Oregonian.

FRIDAY MORNING MAY 10 [illegible]

Fear of Consequences

That the [illegible] tinued ascendency of the Republican party in national affairs is necessary to the continued repose and prosperity of the country is a fact which is regarded by a large majority of those who represent the commercial business interests and enterprise [illegible] is still as it has been for many years. This country has [illegible] and with reason afraid of the consequences of a Democratic triumph. Confusion [illegible] and perhaps a general collapse would at any time during the last twelve years have been the consequences of placing the Democratic party in control of national affairs. Its loose notions of the powers of the General Government, its proclivity for repudiation, its pernicious paper money theories and its other innumerable doctrines full of absurdity and fraught with danger—all have made that party dangerous to the welfare of the country and have caused the people to fear the consequences of placing it at the head of the Government. They could not afford to put everything in peril. And hence they have steadily refused the bland invitation of the Democratic party to be entrusted with power.

The situation continues without material change. It is perceived on all sides that the only way to make sure the continuance of national safety and prosperity is to support the party under which this safety and prosperity have been secured and maintained. Hence the strength of the country as represented by its men of established business character, men of discernment, penetration and business sagacity, who know the conditions of national prosperity and what is necessary to perpetuate them, is for the re-election of Grant. These men perceive how greatly important it is to have steadiness and consistency in the administration of the Government. They want crude and dangerous theories kept out. They are satisfied with the thing that is, and distrust the unknown especially when the unknown appears full of dangers.

Reasons like these will have a powerful effect in deciding the Presidential election. He commits a great mistake who does not consider them as an element to influence the contest. The sum of it all is that the people detest Democracy and are afraid of its consequences.

More Opinions About the Cincinnati Nominations

The New York *Evening Post*, the great free trade paper of the United States, headed the news of Greeley's nomination thus "Grand Failure. Reform Surrenders to Monopoly and Centralization."

The New York *Commercial Advertiser* commenting on the action of the Convention, said "The prospects of the Republican party have brightened, and whether Democrats indorse Greeley or not, he is doomed to defeat."

One of the strongest advocates of the Cincinnati movement is the Springfield (Mass.) *Republican*. That paper, however, says that "the Cincinnati Convention rested content with doing well when the country and the hour demanded that it should do its best."

The weight of Democratic opinion is decidedly adverse to the endorsement of Greeley. The New York *World* expresses "profound surprise" at the result of the Convention and says it can't support and no one has reason to believe the Democracy will support it.

The Philadelphia *Age*, the leading Democratic journal of Pennsylvania, says that Democrats cannot support Greeley and Brown. It demands the nomination of Democratic candidates.

The Democratic press of California repudiates Greeley. The principal journals demand an out-and-out Democratic ticket.

The Sacramento *Union*, a thoroughly independent paper, whose opinions on political matters have obtained great weight, declares that the Cincinnati Convention has "made a mistake and a fatal one." The result of the Convention it says, "is a failure." "It is useless," adds that paper, "to make an electoral ticket for Greeley in any State in the Union. His name will not be mentioned in the electoral college. It may be that his infatuated friends will insist on airing him in the Presidential race, but it will be only to subject the sage of Chappaqua to derision."

The New York *Times* speaks of the whole thing as a "sad farce."

The Indirect Claims

The trustworthy Washington correspondent of the New York *Times*, writing under date of April 26th, says that most of the dispatches of some time past in regard to the action of our Government on the question of indirect claims are utterly without authority and substantially without truth. The writer then proceeds to say that the position of the Government on the question has undergone no change. The indirect claims, it is asserted, are not withdrawn, and will not be withdrawn, unless Great Britain makes such a concession inside or outside of the Geneva tribunal as will grant the point for which they were inserted, to wit a settlement of the question involved. The Government is sincerely anxious to save the arbitration. It has been unjustly accused of unnecessary stubbornness in the matter. It has never intimated that it expected any award of pecuniary damages for the indirect claims, and it does not believe the people expect it. But it believed, and it still believes, that it had a perfect right to present them and to have them decided. A decision is all it wants, and if Great Britain does not agree to a decision of the question, then she must take the responsibility not only of breaking the treaty but of refusing to meet this Government's most generous advances in a spirit of fairness and candor.

This is from the New York *Times*. During the three years that the Republicans have had undivided control of the Government, the debt of the United States has been reduced within a few thousand dollars of three hundred millions of dollars. The annual saving in interest to the people by this reduction, at the present premium on gold is about twenty millions of dollars. On the other hand the grand jury which indicted Mayor Hall, assert that under Tammany rule in this city fully twenty millions have been stolen. Yet it is with the party that produced Hall, and that still substantially support him, that Greeley and his fellow reformers propose to ally themselves to purify the National Government.

And now the *Herald* is in tribulation about the number of voters that appeared in the Republican primaries the other day. Its wail is drawn out through two columns. It might have added "To be continued in our issue of the day after the June election." For our neighbor will then be lamenting what a multitude of Republican voters appeared at the polls.

Regardless of the clamors of the [illegible] movement the Republicans of several more States have declared for the renomination of Grant. The wish of the party cannot be misunderstood. It is absurd for the managers of the [illegible] show to claim that they represent any considerable number of Republican votes.

The early severity of the past winter may be partly explained by the peculiarity of the winds that led to the loss of our whaling fleet. FRIDAY MORNING, MAY 10, 1872.

CITY.

A FELINE DESTROYER.—What is more deliciously soothing to the nerves of a tired individual than to be suddenly awakened from a sound slumber by the harmonious caterwaul of feline serenaders. How excruciatingly pleasant is the sharp agonizing wail breathed forth by Thomas. Portland, of all cities, is infested with these nocturnal musicians. Dogs, rats and cats—but the greatest of all are Thomas and Tabby. We have lately heard of a wonderful invention made by some humane genius in the shape of a ferocious sheet-iron cat, which works by machinery. It is armed with terrible claws, and utters all the alluring and pathetic cries with which the feline race is gifted. Placed on the roof in a balmy night and set in motion, it calls about it all the prowling cats for miles around; and one by one they attack the glaring sheet iron monster and are instantly torn in pieces. In the morning the roof and all the surrounding domain are covered with tufts of fur, with dislocated claws and tangled fiddle strings. The invention may be truly said to be one of the greatest of the present age, and the "tarnal critter" a useful ornament to any populous city like Portland.

REFINEMENT OF DEVILTRY.—It is a generally admitted fact that Portland possesses some pretty bad boys. But we have heard of some of their recent acts, which, if true, will put to shame all their past deviltries. Again we say, if it be true, it is "beyond the feeble expression of 'badness'" ... "ility," and assumes a decidedly diabolical ... We have been pretty authentically informed that several boys took a large dog yesterday ... ating and tied him to the railroad track, ... distance above the Sisters' school. He was ... in such a manner that the cars could not pass without crossing directly over his body. It ... at an early hour of the morning, so that the ... train could not see distinctly what ... The sequel is that the poor, helpless animal was run over and killed. We may possibly be misinformed about this matter, and we sincerely hope for the sake of humanity and the Portland boys' credit that we are. If we are not, then the perpetrators of this outrage ought to be ... up and severely punished. It is not a consoling reflection that Portland is infested with such a crowd of young vandals.

COMPLIMENTARY TO PORTLAND.—Mrs. Carrie F. Young, the well known Temperance lecturess, speaks thus of our city in a letter to her paper: "Portland contains twelve thousand people, two ... one on each side of the river. At her wharves are ships and steamers loading for China and Japan, the Sandwich Islands, Mexico and South America, Puget Sound, Alaska and the extreme North Pacific. In a few months, there will be a line of vessels direct to London and Liverpool. They return with goods, furs, fish oil, ivory, silks and tea, and men. The commerce of this part of the Pacific coast is yet in its infancy. When the four hundred millions of China shall begin to ask for flour and fruit, who can estimate the importance and value of the commercial position and capabilities of Oregon.

BROKEN DOWN.—The axletree of a small phaeton belonging to Mr. S. G. Reed was broken yesterday at the corner of First and Alder streets. Mrs. Reed and the coachman were seated in the vehicle at the time. The horse became frightened, as he was being driven up Alder street, at some large meat blocks at one side of the street, and swerved suddenly to the other side. It was done so quickly that the driver could not prevent the animal from shying off. The fore axletree was snapped in two like a pipe stem, and the vehicle came to the ground. Mrs. Reed leaped out, and the horse was caught before further damage could be done.

DEMOCRATIC PRIMARIES.—In all times it is necessary that sacrifices should be made both for public example and private good. Our Democratic friends propose soon to do that work of charity. Political lambs must be chosen to offer upon the altar the 3d of next month. The Democratic primaries will be held throughout the county on Wednesday, the 15th instant, and the County Convention at the Court House on Saturday, 18th instant. Friends of the "lost cause" are requested to be in attendance and assist in performing the melancholy duties of the situation.

ANOTHER BUILDING.—The residence of Chas. Wiegand, corner of Third and Alder streets is being raised, preparatory to its removal. On the present site Mr. Wiegand proposes to erect the present season a large wooden building two stories high, a more minute description of which we gave some time since. Thus it is, one by one the old landmarks fade away from sight in the city's march of improvement, and buildings of greater magnitude and more imposing appearance are springing up in all directions.

THIEVING AGAIN.—The residence of Mr. G. C. ... was entered on Wednesday night by some burglar. He penetrated as far as the pantry, ... a few matches, and wisely concluded not to reconnoiter farther. Nothing was missed, and there was nothing to indicate the presence of the "Light Fingered Brigade," but a few matches, half burned, and a window left open with an apple box under it.

SEARCHING FOR LIGHT.—We are excessively gratified to announce that our "City Dads" are determined to give the city clock some of that kind of gas which illuminates and is explosive. Some action looking towards that "consummation devoutly wished for," was taken at the last meeting of the Council. If the City Fathers utter the fiat, "let there be light," why, we will have it, and not before.

FROSTS.—The *Era* says: The late frosts have killed most of the blossoms on the fruit trees in this city, and the prospects are that but very little fruit will be gathered from our orchards this year. Several large cherry orchards immediately adjacent to the city will not yield a single cherry, so effectually has the frost done its work.

INFORMATION DESIRED.—Mrs. Louisa Gore, writing under date of April 11th, 1872, from Pembroke House, Colomborie, Jersey, Eng., desires information concerning the whereabouts of her son George Gore. When last heard from, he was in this city sometime in last December. Tidings will thankfully received.

THE WILLAMETTE BRIDGE.—In the course of his remarks before the Common Council on Wednesday evening, Col. Chapman stated that the work on the proposed bridge across the river at this city would be commenced about the 1st of August and completed by a year from next fall.

WOOD.—The wooded heights to the west of the city are slowly being denuded of their timber, which is being converted into cordwood. This is a profitable way to clear the hills, as the price which the wood commands will about pay for the cost of cutting the timber away.

IDAHO ARRIVED.—The steamer *Idaho*, Captain Bolles, reached this port last night from San Francisco. She brought a number of passengers and a full freight list of assorted merchandise. We published the list of passengers in our issue of Monday.

RIVER IMPROVEMENT.—By a private dispatch from Senator Corbett, received yesterday, we learn that the Senate Committee on Commerce have agreed to report an appropriation of $50,000 for the improvement of the upper Columbia.

PERSONAL.—S. C. Wingard, Esq., United States Deputy Attorney for Washington Territory is in town. He has the reputation of being one of the best lawyers in Washington Territory.

TEAMS.—We observed yesterday an unusual number of teams in from the country. The appearances are that the spring trade is opening quite actively with the farmers and merchants.

COLLECTED.—At the monthly meeting on last Sabbath of the M. E. Taylor street Sunday School the sum of $220 was raised towards liquidating the present indebtedness of the school.

RAILROAD IRON.—The brig *Pomona* brought up 275 tons of iron—1,375 rails—for the O. & C. R. R. It will be discharged and forwarded to the front as soon as practicable.

DELEGATES.—David Powell and Dr. Barker are the delegates from Sandy Precinct, and Thomas ... from Fulton, to attend the Republican County Convention.

CONTRACT AWARDED.—The contract for the ... of the fine residence of Jacob Kamm, was awarded yesterday to Mr. Thorkelson, for the sum of $10,000.

A PROPOSED EXCURSION.

We were favored yesterday with a call from Rev. C. W. Shaw, of Albany. This gentleman gave us the information that he had effected all the necessary arrangements with the Oregon and California Railroad Company, to bring to this city on the Fourth of July, a large crowd of people. Any persons living along the line of the route from the end, beyond Eugene City to Oregon City, can be accommodated by the cars. Ample accommodations will be provided for all who may desire to join the excursion. The rates of fare will be very materially reduced—on an average less than one half the ordinary rates. From twelve to twenty passenger cars will be used, in accordance with the numbers who may attend.

As we understand it, the object of this excursion is to afford every one who may desire, an opportunity to visit this city for a few hours, and celebrate the National Birthday in as pleasant a manner as possible. Mr. Shaw desires that the public throughout the interior of the State should be apprised of the existing arrangements at as early a day as possible. The Fourth is not remote, and preparations will doubtless be commenced soon at different points to celebrate in the usual manner, that day. This will anticipate such proposed celebrations, and probably be the means of concentrating in Portland on that occasion, one of the largest crowds which the city has ever witnessed. In this proposed public matter, much will depend upon the course adopted by this city. If the citizens of Portland conclude to celebrate the Fourth in a manner befitting both the day and the position of the city, and extend a cordial and general invitation to persons from all portions of the State, to come and participate, there will be, without doubt, an immense ingathering. Besides the example which Portland ought to set in the celebration of such an important day, there are other considerations which ought to have a voice in the matter. The positive advantages which would be derived are of no small consequence. Merchants and hotel keepers would reap a golden harvest by the influx of several thousand persons from abroad. Every class of our people would be more or less benefitted by such an ingathering. Last year a feeble effort was made towards an observance, in the "old style", of the Fourth in this city; but the project fell through. It is to be hoped that the matter will be taken hold of with a determination to accomplish the object intended, this year. That a city, boasting of ten thousand population, besides being the metropolis of the land of the Webfoot, and the point from which two important lines of railway radiate, should not possess sufficient patriotism and enterprise to celebrate the Fourth of July, appears strange. Let our citizens undertake this matter *in time* and with a *will*. Let a general invitation be extended to the whole State, including Washington Territory. The arrangements already effected by Mr. Shaw, should add an impetus to our public minded citizens, and serve as an incentive to *act* with determination and promptness.

Mr. Shaw also informed us that arrangements would be consummated with the Oregon Steam Navigation Company's steamer, by which persons could be conveyed either to or from Astoria and the Dalles at one half rates.

In addition we learn that Mr. Halsey, owner of the new hotel, corner of F and Front streets, has telegraphed to a gentleman in Olympia, to whom he has leased his hotel, to know if he could have the hotel ready for a grand opening on that day for the special benefit and accommodation of the excursionists. We hope the press and citizens will not allow the subject to rest in silence, or "go by default." Prompt action is required.

BUSINESS NOTICES.

CAUTION.—The advice so often gratuitously proffered the afflicted, "to let their disease alone," has sacrificed many a valuable life that might have been saved by timely and proper treatment. There is but one common sense view to take in this matter, and that is for the patient to consider whether he is not running a much greater risk that his disease will eventually prove fatal if let alone, or go untreated, than by advancing a few dollars for a supply of Dr. Aborn's medicines, that have effected speedy and radical cures in so many of like character. A patient should not be persuaded from applying to any physician that may be his choice. Busy bodies are frequently the cause of a death by interfering with the patient and his physician.

A LETTER FROM MRS. HYDE.

To Whom it May Concern: I have been afflicted for about four years with a catarrh in the head and bronchial affection and severe cough. Having applied to other physicians and found no relief, I applied to Dr. Aborn, January last, and have been under his charge about four months, and am now almost well. I hope that others afflicted in this and other ways, will find relief from Dr. Aborn. Very truly,

SUSAN HYDE.

FOREST GROVE, May 7, 1872.

CAN'T BE OUTDONE.—Notwithstanding the many inducements offered by other Clothing houses in this city to please the public, the firm of J. O'Neil & Co., 95 First street, are not to be outdone in the matter. Their prices ... quality of goods. They have received and are ready ... of Clothing and Furnishing goods, and ... that may be extended to ... Summer wear the Chesterfield ... among the attractions they offer.

THE CLOTHING TRADE.—First street is becoming a center for the transaction of retail business. Among the latest additions may be noted that of the firm of Fishel & Roberts, S. W. corner of First and Washington streets, who recently opened an extensive stock of ready made Clothing and Gents' Furnishing Goods. Gentlemen and youths will find an excellent assortment of Cloths in this house from which they can have made Suits of the Latest Style at prices that no person need complain of.

HOUSEKEEPERS, ATTENTION.—Monnastes, No. 120 First street, received by last steamer a large invoice of Crockery, Glassware, and other articles in his particular line, and proposes to sell the same to the public at prices that must satisfy everybody. To be convinced just call on him, examine his stock and buy, for you certainly will, as he offers goods at lowest rates and of the best quality.

THE UMATILLA HOUSE at The Dalles is now completed and furnished in every respect unsurpassed. The office is the most cheerful and pleasant in the State, and the dining hall is unequaled. The rooms are all newly furnished. The house has twelve suites of rooms with stoves in them for families. The new house stands much higher than the old one. The ceilings are four feet higher, which adds greatly to the cheerfulness of the rooms. The table is kept in a style to correspond fully with the appointments.

AT HOME.—Those who have had occasion to travel along Front street, and there are few who have not, must have observed the extensive Clothing establishment of Jos. Kohn & Co. There is no house north of California that can display to the public such an immense stock of Clothing as that of Jos. Kohn & Co., 91 Front street. Any one visiting this firm will feel perfectly at home with the gentlemanly clerks attached to this house. To be satisfied, try them.

The Office of THE DAILY AND WEEKLY OREGONIAN is removed to the S. E. corner of Stark and Front streets.

Fallacy Theories Overthrown.

We live under a new medical dispensation, very different from that under which so many of our forefathers died. The sick are no longer bled till they faint, nor gorged with mercury, nor prostrated with violent cathartics, nor blistered on their shaven heads. Ever since the introduction of Hostetter's Stomach Bitters, twenty years ago, renovation and restoration, not depletion and prostration, have been the watchwords of the judicious portion of the profession. The remarkable success of this famous vegetable preventive, invigorant and alterative has worked a complete revolution in the general treatment of disease. At first the dogmatic members of the faculty would not believe in it. "What!" they exclaimed, "cure liver complaint without mercury, chronic rheumatism without colchicum, fever and ague without quinine! Impossible." But the most obstinate incredulity must yield to proof. ... From that time to the present dyspepsia, biliousness, intermittent fevers, nervous diseases, ... complaints have yielded to the operation of the great specific, in at least ninety per cent. of the cases in which it has been used as a remedy for those ailments, while as a preventive of all maladies generated by change of climate, and the revulsions of temperature, epidemic poison in the atmosphere, and unwholesome water, its beneficial effects have been so obvious and uniform as to secure the most perfect confidence in its properties as an antidote, safeguard and cure.

PLANTATION BITTERS!

S. T.--1860--X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

LYON'S KATHAIRON,

For Preserving and Beautifying the Human Hair. To Prevent its Falling Out and Turning Grey.

A well-preserved Head of Hair, in a person of middle age, at once bespeaks refinement, elegance, health and beauty. It may truly be called Woman's Crowning Glory, while men are not insensible to its advantages and charms. Few things are more disgusting than thin, frizzly, harsh, untamed Hair, with head and coat covered with Dandruff. Visit a barber and you feel and look like a new man. This is what LYON'S KATHAIRON will do all the time. The charm which lies in well placed Hair, Glossy Curls, Luxuriant Tresses, and a Clean Head, is noticeable and irresistible.

Beating Grant

In a leading article on this subject after showing how Trumbull was re-elected to the U S Senate, through the single vote of his brother in law who was a member of the Illinois Legislature the Washington Republican notices the Cincinnati malcontents as follows

Abraham Lincoln and Mr Trumbull arrived in Washington at the same time in the beginning of 1861 The newly re-elected Senator was well acquainted with the newly elected President, and took the first opportunity to remind him that the great service of his affectionate and patriotic brother in law in sending a good Republican like himself to the United States Senate was an act that should be fitly rewarded by his appointment as a Territorial Governor Mr Lincoln protested that it would embarrass their friends at home, and make the Legislature a tie The self sacrificing Senator did not care for that and at length to satisfy him Mr Lincoln was compelled to make Mr Trumbull's relative Governor of Dakota Territory which led to all the subsequent trouble in the Illinois Legislature, wherein Richard Yates won so great a name and fame

We have recalled this little incident in the career of Mr Trumbull because it aptly illustrates his whole public life The efforts which he is now making to paralyze the Republican party springs from exactly the same motives as his petulant demands for the appointment of his brother-in-law, namely, his intense selfishness and ambition Greeley and half a dozen others who are shouting "up to Cincinnati" to "beat Grant," who are plotting and intriguing with the men who but yesterday were resolving and voting that the war was a failure, are engaged in this crusade because General Grant stands in the way of their advancement The cry for reform is a mere mockery. Their platform is a snare and delusion. Take them all in all, what precious patriots and reformers they are! Some of them ran away to Europe from the draft others did service in the rear as wandering minstrels and lecturers at $50 per night and their expenses paid, others were the hired agents of Chase to defame and blacken Lincoln, still others grew fat and sleek in Post-offices and consulates and sutlers tents, at a safe distance from the picket lines and the trenches, and now they are all going to Cincinnati with their grievances and their troubles to make a coalition with the Democracy and with Tammany Hall, and "beat Grant in some way."

The country has become familiar with this cry "to beat Grant." The rebels in the South and the Democrats in the North tried "to beat Grant" all through the long and bloody years, from Cairo to Appomattox We saw the effect in Alabamas upon the sea and in burning orphan asylums upon the land we heard it in the roar of the street riot and in the tumultuous cheers of a hundred treasonable Conventions from '61 to '68 It has been ringing through the land for eleven years. But Grant has not been beaten yet, and, without pretending to be prophets we do not think he will be beaten now Mr Trumbull believes that he is as dead politically as Andrew Jackson is physically For a dead man he is wonderfully hard to beat It can be accomplished in no other way say all the political doctors, than by a union and a coalition of all the sorehead Republicans, the late copperheads, rebels, Ku-Klux the "professional foreigners," a couple of Supreme Court judges, Sam Bowles, the *Tribune*, the New York *World* and Geo Wilkes *Sporting Spirit of the Times*, and Bonner's *Ledger*, Sylvanus Cobb Jr, and Anna Dickinson thrown in. It is all no use. Next November we shall have a grand fight, and Grant, with four million voters and thirty States behind him, will win another great victory The motley opposition will meet a total defeat, so overwhelming that they will not even have time to carry off their baggage of old newspapers and sporting pictures, wigs, white coats, pantalets (Whitelaw Reids) and dime novels.

The True Mission of Labor.

[From Harper's Magazine]

We can not have any true science of society unless we begin right by taking for granted the justice of God and duty of man toward his neighbor. We do not define work unless we recognize its human or personal as well as its material quality, and remember that it is a man, and not a machine or a beast of burden, who does the day's work. Nor do we correctly define wages or property in general, unless we include all human worth as well as material commodity in the idea. We are to expect even the day laborer to work kindly and respectfully as well as constantly, and we are to encourage him by our good will as well as our money, and try to make him use his earnings for the best good of himself and family, instead of for beastly indulgence. All that we do, or that we employ others to do, should be with an eye to enlarging the amount of truly human good in the world—the moral and intellectual capital of society Some men, indeed, are expected to live mainly for this purpose, and they who preside fitly over education and religion can never forget that they never labor not merely for wealth, but for worth, and that the capital which they help to accumulate is measured by habits and principles, ideas and virtues, and not merely or mainly by dollars and cents. But why limit this feeling to any exclusive classes? Why not encourage the common laborer to work as a true man for the true good of his family and his neighborhood, and to take a hearty interest in the sobriety and education and religion of society at large? The true social ethics begins with the man as man in all true human relations, and, of course, begins with him as member of a family determined to bring into the field of labor all the motives that grow out of the household affections under the sanction of marriage, and the power of all its congenial affinities and relations Take away marriage and the human and divine order of the household, and labor loses half the amount of its motive, and more of the best character of its purpose

The socialism that sets up a selfish individualism, or the massed individualism, or the [illegible] despotism of communism above the true social order of the family is to be rebuked as alike ungodly and inhuman, while we are to cheer every form of co-operative industry that keeps the workman open to the spur of his reward, maintains purity and order in each family, and enlarges in every just way the great joint stock capital of civilization and humanity. We see the dangerous influence of both extremes in the socialism that sacrifices social ethics to physical force whether in the churlish miser, who cares nothing for public spirit, so long as he can clutch the key of his own board, or in the frantic communist, who puts the torch to the libraries and galleries of art and science and would madly destroy all the great monuments of a civilization that sets any limits of authority to the rush of members and the weight of masses and the imperialism of their juntos who often trample upon the very majorities that they profess to represent

Advices from Persia state that the famine in that country is increasing In Teheran, the capital city, the destitution is becoming wide spread, and it is feared that with the approach of summer, the disease and epidemic, which partially abated during the winter months may again appear. The extremities to which the inhabitants are reduced in their efforts to obtain food are dreadful, the commonest herbs and roots being frequently used to satisfy the cravings of hunger Numbers perish daily from want and exhaustion From all parts of Persia a similar condition of affairs is reported. Many of the towns and villages have almost suffered depopulation by the protracted famine

Up to the present time six candidates are in the field for Presidential honors, for 1872 George Francis Train, nominated by himself, Victoria C Woodhull, by the Woman Suffragists, Geary W Julian, by the Working Men's Association David H Davis, by the Labor Reformers, Jas Black by the Temperance People, and Horace Greeley by the—the—we give it up

The Indian Territory Murder

Items concerning this terrible tragedy were received by telegraph some time since and now the following particulars reach us by mail The massacre occurred in the Cherokee nation Indian Territory, near the Arkansas line at a place called Whittmore's

AN ACCOUNT OF THE AFFAIR

In order that the circumstances causing the terrible fight above detailed may be more fully understood we will state the following On April 11 a white man named J J Kesterson living in the Cherokee Nation near the Arkansas line about fifty miles from this city came here and filed information before United States Commissioner Churchill against one Proctor also a white man married to a Cherokee woman for assaulting him with intent to kill He stated that while in his saw mill on February 13 last, Proctor came in walked up without provocation and shot his wife dead He then fired his revolver at him the ball striking just above the left eye Before he could fire again Kesterson escaped it is further stated that Proctor is undergoing trial for the murder of his wife at the court house in Snake district about 7 miles northwest of here A writ was issued, and the deputy marshals were instructed to go to the court house and remain until the trial was over and if he was not convicted to arrest him on another charge Proctor is known to be a desperado and it being in the neighborhood where Deputy Marshal Bentz was killed, about a month ago—where in fact a deputy marshal is shot almost at sight—it was necessary that a strong force should be sent

THE PARTY

had also writs for the murderers of United States Deputy Marshal Bentz, who are supposed to be in the immediate vicinity and they intend to resist arrest On the morning of April 13 Deputy Marshals Jacob H Owens and Joseph G Peavy with Wm Weed Joseph G Vanney James Harkins Paul Jones and Eugene Brackett as a posse left there for the scene action At Evansville they were joined by Riley Wards and W J Morris, and at Dutchtown by a man named Beck, who is part a Cherokee The Indian court house is about 12 miles west of that place The party proceeded and about 3 P M on Monday they were within fifty yards of the court house, when they dismounted, hitched their horses and quietly walked towards the east side of the house in file by twos They stopped at the corner, and Beck stepped around to the front door and looked in seeing a large number of people inside,

ARMED TO THE TEETH

he turned immediately to come away, but not before he was fired upon and dangerously wounded At the same time a volley was poured from the court house upon the marshal's force without, who then commenced to return fire They were at a great disadvantage, as the attacking party was under shelter inside of the court house It appears that Beck had some friends inside the court house, who when they saw him fall, opened fire on his [Beck's] enemies inside, and presently the fighting was general It was brief, however, but

TERRIBLE IN ITS RESULTS

Of the marshal's force seven out of eleven lay dead and of the assailants only three Some sixteen or seventeen are reported wounded—some mortally, including Marshal Owens The messenger knew the names of only two of the marshal's force who were killed—James Ward and Riley Woods Three were missing—James Hawkins, Paul Jones, and Eugene Bracket Morris helped to lay out nine bodies on a porch, about half a mile from the scene of the deadly affray and thither the Federal wounded were also carried Proctor, the woman-killer and desperado, was guarded by eleven of his personal friends, who would not see him convicted The sheriff was killed, and the judge received three buckshot in the knee Indeed, it appears from the sudden and deadly assault on the marshal's force, that the people inside the court house had been fully informed of their approach, and were prepared for them The officials were instructed to make a demand for Proctor only in case of his acquittal, and expected some resistance should they attempt to arrest Proctor after his acquittal, but for

THE MURDEROUS VOLLEY,

on their first approach they were not prepared, and hence their slaughter Immediately on the receipt of Deputy Marshal Peavy's letter, R C Kerrens chief deputy marshal, Capt J W Donnelly, chief clerk, and U S Commissioner Brooks Churchill raised and mounted thirty men, under command of Marshal C F Robinson, and Jos Tinker, deputy Accompanying the expedition are Drs J C Field and C W Pierce A demand has been made on the national authorities to assist in taking the murderers

DEAD OR ALIVE

This is one of the most terrible affairs ever known in this country with which the more intelligent portion of the Indian Territory are misled by bad white men What protection can be had may be surmised by the fact that Proctor has committed 18 murders and is still unhanged It is the stern determination of the U S Marshal in this district to bring to justice the murderous and rebellious crew at any sacrifice or expense

The Fort Smith (Ark) *New Era* of the 19th gives some further account of the recent tragedy in the Indian Territory It seems the approach of the United States Marshal's force was well known at the Court House and preparations for resistance were made The Court on the morning of the fight having adjourned from the Court House which stands on open ground, to a school house half a mile away where the neighborhood is very closely built up, all the people were assembled there armed, including the jury Even Proctor, the murderer had a Spencer rifle and two revolvers Of the Marshal's party eight were killed, including Deputy Marshal Owens, and two severely wounded.

Of the assailants four were killed, including a Deputy Sheriff and juror and six were wounded Besides these two men were found dead half a mile from the court house and it is supposed they were killed in wantonness by the retreating aggressors A letter from Deputy Marshal Robinson in charge of the rescuing party sent from Fort Smith, says that they arrived at the place of the fight on the 17th and found the whole country deserted The Proctor party left the previous day, with sixteen well armed men taking their wounded with them into the mountains and pursuit with a handful of men was out of the question

THE STORY OF THE FIGHT NOT EXAGGERATED

LITTLE ROCK Ark, April 23 Deputy Marshal Peavy's letter says the accounts of the Tallaquah Court House tragedy have not been exaggerated It was a dreadful affair both sides fighting like bull dogs There were 13 killed and 12 wounded

The unusual rise of gold is attributed to the condition of our relations with England relative to the Washington Treaty But this does not explain the whole phenomenon The secret of these fluctuations is hidden in the deepest recesses of our economic and industrial system Large sums of gold are to be disbursed this month by the Government in payment of interest and these payments may reduce to some extent the premium on gold

REPUBLICAN PLATFORM

RESOLUTIONS ADOPTED BY THE STATE REPUBLICAN CONVENTION AT PORTLAND, MARCH 20, 1872.

The Union Republican party of Oregon in Convention makes this declaration of its principles and policies

1 To the Constitution of the United States and all its amendments we pledge our unfaltering allegiance, to its authority a willing obedience, to its full and legal construction and enforcement our constant support

2 That the success of the present National Administration in reducing the public debt diminishing and equalizing taxation administering every branch of public affairs with economy and efficiency fostering and improving the civil service enforcing the laws without fear or favor protecting the nation's wards with paternal care against the cruel avarice of speculation and fraud and maintaining friendly relations with Foreign Powers has been such as to command the approbation of the great majority of the American people and justly entitled to the confidence and commendation of every true Republican

3 We regard the payment of our national debt in full compliance with all legal obligations to all our creditors everywhere and in accordance with the true letter and spirit of its contracting as no longer a question at issue but that we may be clearly understood we denounce all forms and degrees of repudiation of that debt as affirmed by the Democratic party and its sympathizers as not only national calamities but positive crimes and we will never consent to a suspicion of lack of honor or justice in its complete satisfaction

4 We admit of no distinction between citizens whether of native or foreign birth; and therefore we favor the granting of full amnesty to the people of the States lately in rebellion and we here pledge the full and effective protection of our civil laws to all persons voluntarily coming to or residing in our land

5 We favor the encouragement of railroads by the General Government of the United States and hold that in dealing with such [illegible] the public lands shall secure the same to actual settlers only in quantities not exceeding 160 acres

6 That while we are in favor of a revenue for the support of the Government [illegible] by duties upon imports [illegible] such adjustment of these [illegible] as will encourage the development of the industrial interests of the whole country and we recommend that they [illegible] the agriculture [illegible] rative prices to [illegible] and manufacturers an adequate reward for their skill, labor and enterprise and to the Nation commercial prosperity and independence

7 We believe that popular education is the sole true basis and hope of a free government and shall ever oppose any diversion of or interference with the common school [illegible] lands in this State for any other than their legitimate purpose and we condemn the act of [illegible] by the last Legislature whereby two hundred thousand dollars taken from the school fund were voted to a corporation [illegible] Democratic leaders and party favorites for the construction of a work which another corporation [illegible] responsible offered to construct for seventy five thousand dollars less [illegible] and that we are in favor of the passage by the Legislature of an efficient school law such as shall secure to all the citizens of our State a good common school education

8 We find no terms sufficiently strong to express our disapproval of those acts of the last Legislature whereby the swamp lands belonging to this State have been taken from the needy settlers and given without limit or proper competition in price to the land grabber and speculator whereby the emoluments and salaries of State officers have been unconstitutionally increased and the taxes increased [illegible] by the creation of new and unnecessary offices [illegible] for party favorites [illegible] the citizens of [illegible] equally condemn the administration of our State offices and laws as extravagant, reckless, illegal and destructive [illegible] the Democratic party

9 We are in favor [illegible]

10 That we demand [illegible]

11 That the Republican party of this State [illegible] the General Government [illegible] Oregon [illegible] Salt Lake City and from Jackson [illegible] party pledge our party [illegible] support of the same

12 That [illegible] all intoxicating liquors [illegible]

13 [illegible]

14 We affirm that [illegible] Republican party [illegible] and the rapidly warming State life [illegible] slavery to an elevated and enlarged citizenship [illegible] trust to an unimpaired foreign credit [illegible] and financial system and to the unparalleled peace and prosperity everywhere in our broad domain and these are our pledges for the future

15 We hail the New Departure of the late Democratic party taken by the action of their conventions in seven States as an affirmation of the principles for which the Republican party has contended for the last ten years and in the Passive Policy of that party already assumed in several of the States we recognize an acknowledgment of their hopelessness of success in the coming Presidential campaign.
